

semantics

the well worn word of emptiness
the phrase i said too loud
i sing it with some bitterness
a meaningless white cloud

all my feelings all my thoughts
truth value is set to zero
reality caught up with me
i know i am no hero

i follow this white elephant
some people call it love
my decision is made up
give peace to the black dove

all my life i had to learn
the meanings of each word
all the meanings have been lost
although this sounds absurd

and when my life seems meaningless
semantically based
i carry on to use it right
won't produce more waste
